

# REDCLIFF REVIEW

OUR SLOGAN: An Industrial Metropolis of Industrious People Who Pull Together.

Volume 18

THE REDCLIFF REVIEW THURSDAY, MARCH 26, 1931

Number 27

## Young Peoples' Concert Was Great Success

Gordon Memorial Well Filled for the Occasion.

It is some time since Gordon Memorial was so well filled as it was for the Young Peoples' Entertainment last Thursday evening.

Despite the large number taking part the program commenced promptly on time and by the time the curtains were drawn for the opening chorus every available seat was occupied and standing room was at a premium.

Owing to the lengthy program and the excellent manner in which every number was rendered it would be well nigh impossible to single out any one for special mention, nor would space permit us to refer to each item as it deserved. So well balanced was the program that all tastes were appealed to and as an evidence that all were pleased, some of the audience expressed a preference for some numbers while others liked others best. However all were agreed that there were no poor numbers.

The splendid show, made by these young people, of whom some had their first appearance on the stage, and the enthusiastic manner in which they entered into the preparation of the program, is worthy of the highest praise.

With such excellent talent for similar entertainments some effort should be made to keep these young people together by the formation of a club when they could meet regularly for a sing song.

Besides being a distinct credit to the young people who took part, the entertainment reflects equal credit on Mrs. Stone and Mrs. Hargrave who undertook the training and were responsible for the numbers selected. Both assure the Review that the manner in which the young folk responded to their wishes and the whole hearted way in which they entered into making the event a success, made the undertaking a pleasure to them.

As well as being a success from an entertainment standpoint it was also a financial success as the Ladies Aid will clear in the neighborhood of \$100 from the proceeds.

## MANY FARMERS AGAINST 100 PER CENT POOL

From recent developments it is quite evident that farmers of the neighboring provinces of Saskatchewan and Manitoba are not one hundred per cent, wheat pool movement. Farmers in several centres of Saskatchewan have met and passed resolutions condemning the principle and in Killarney, Man., 500 farmers, many of them Wheat Pool members, met the other day and voted almost unanimously against the 100 per cent. pool plan, and refused to allow R. F. Chapman, director of the Manitoba Wheat Pool, to speak. It is now suggested that the vote in Saskatchewan be delayed until the courts have decided whether or not the 100 per cent. can be legally carried out.

There will be a shoot at the Armory Rifle Range every Wednesday evening.

## Arrangements For Seed Grain Relief

For Those Who Cannot Obtain Same Themselves.

Final arrangements of a plan for distribution of seed grain to needy prairie farmers and government financing of the project were agreed upon at Winnipeg Saturday night by representatives of Hon. Robert Weir, Dominion Minister of Agriculture, and ministers representing Manitoba, Saskatchewan and Alberta. Seed grain will be supplied "only to those who cannot obtain the same through their own resources," a statement released following the conference said.

Municipalities were given the task of distributing the seed grain in the various provinces. Farmers who qualify for this form of relief will be charged the market price of No. 1 Northern wheat in the locality where supplied, plus five cents extra for cleaning and 10 cents for dockage. Municipalities will be responsible for 25 per cent. of the eventual loss, the remainder to be absorbed by the provincial and Dominion governments.

Under the plan formulated Saturday, the Dominion undertakes to supply the necessary money for the seed grain for a period of eight months in treasury bills. Collections will be made by municipal councils.

"All applications for seed grain," said the statement, "will be made to the local municipal council in organized territories. In the case of unorganized territory, applications will be made to the proper department of the provincial government."

Farmers were assured a high grade of seed, the agriculture ministers agreeing that all seed distributed should meet the requirements of the Dominion Seed Act.

For coarser grain seed, farmers will be charged a premium of 10 cents a bushel over and above the commercial price of No. 2 C.W., in the case of oats, and barley. No mention was made of flax and rye.

## RUMOR OF GRAIN MARKETING PROBE

Eddies of expectancy rippled across the prairie Tuesday centering about the unconfirmed rumor that the Dominion Government is to probe the marketing of grain. It was reported in the Winnipeg Free Press Tuesday that "appointment of a Royal Commission to enquire into grain marketing by the Dominion Government has been decided on, it is learned on excellent authority. Three questions, the Free Press said, would be the main points of the inquiry. They were: (1) Should the Grain Exchange be retained or abolished? (2) If retained, should trading in futures be continued? (3) Would establishment of a 100 per cent. pool be conducive to more orderly marketing and be more satisfactory than the Grain Exchange and Pool method?"

Messrs. R. S. Furter and W. J. Campeau are doing jury duty at the court in Medicine Hat this week.

Fire in Winnipeg did a million dollar damage to a Hancor. Nine planes were destroyed.

## Pioneer of Bowell Dies at Owen Sound

Michael Slattery Passed Away Suddenly.

Word was received this week by Larry Cahoon announcing the sudden death at Owen Sound Ont. last Tuesday of Michael Slattery, who for a number of years farmed in the Bowell district.

Deceased who was 70 years of age, came to the Bowell district in 1907 where he farmed for some time after which moving to the Tilley district. About three years ago he went back to Owen Sound where he has lived with his brother ever since. The late Mr. Slattery was a widower his wife having predeceased him about 35 years ago. He had two sons, Dan, who at present is residing in Calgary, and Clarence who died shortly after enlisting for the Great War.

## Public Hearing on Tariff at Ottawa

Interesting evidence of the interdependence of one section of the community upon another was furnished during the public hearings on tariff matters which have just concluded at Ottawa.

It has long been recognized, of course, that industrial Canada can prosper where agricultural Canada is in distress but the relation measure in which one industry reflects the condition of others is not so generally understood.

Hearing a protest of automobile importers against customs regulations which fix their duty of not more than twenty per cent. Mr. Bennett summed up the facts which led to the source taken. The Government had been satisfied, he said, that the action taken was the only one to prevent destruction of the automobile industry in Canada. Not only was the motor industry faced with annihilation but concrete evidence had been submitted to show that 500 other industrial plants in Canada would go out of business with the motor plants, while an additional 200 plants claimed the same fate threatened there.

There are probably not more than a dozen auto manufacturing or assembling plants in Canada, yet they carry with them the destiny of from 500 to 700 other organizations. And if those organizations be canvassed it will be found that they in turn affect the well being and prosperity of thousands of other businesses. The net spreads so that the business of every large basic or secondary industry directly or indirectly, costs of living to the farmers, and every Canadian. The incident of the motor industry only makes that lesson clear.

At one hearing of tariff representations the "Consumers' League" appeared revamped as "The Canadian Council of Agriculture." The spokesman, Mr. J. Deuchman, protested tariff increases declaring that tariffs increase the cost of living to the farmers. Mr. Bennett asked if the Canadian council of Agriculture favored a lower duty on fruits, vegetables and dairy products.

## Legion Holds Social Evening Last Friday

Was Not Largely Attended But All Have a Good Time.

Although not as largely attended as has been the custom for similar gatherings the whist drive and dance in the cliff hall last Friday evening under the local Legion was, otherwise, a pronounced success. The tables were not all occupied for the whist drive but the contestants showed a keen interest in the game and made it most interesting and exciting to the finish. When the ladies were added, as it was found that Mrs. B. Shaw won the ladies' first prize and T. Balmer the gents' first. Miss D. Kitchen won the ladies second prize and Ted Wainwright the gents' second. The consultations were won by Miss S. Esslinger and T. McCallan.

By the time the music started for the dance the crowd had increased considerably and a most enjoyable social time was spent.

About Midnight a dainty lunch was served after which the dance was continued until 2 a.m.

## B. & C. Footballers Organize For Season

The Redcliff Brick & Coal football team held their annual meeting this week and after deciding to enter a team in the league again this year proceeded with the election of the following officers:

Hon. Pres.—Messrs. E. H. Sellhorn, C. G. Bucholz, J. M. Stratton.

Vice.—T. Dutton. Secretary.—A. E. Shaw.

Ex. Com.—E. Lawson, H. Bartell, J. Cairne, M. Gibbans, E. Fairhurst, J. McFadden, and S. Lowry.

Trainers.—R. Prusky and F. Jorgeson.

A new strip is being purchased, the colors being black and white.

At the meeting, it was also decided to organize a junior team in connection with the plant, for the purpose of encouraging the younger element to get interested in the game.

The strips used last year by the senior team will be handed over to the juniors for their use.

## This Presbytery Shows A Creditable Year

United Church for District is Greatly Improved.

The Presbytery of Medicine Hat of the United Church of Canada met in the Westminster Church, Medicine Hat, on Wednesday, March 4th. Mr. Wm. Henderson was lay member for Gordon Memorial Church and Rev. R. E. Poe is secretary. According to statistics in the hands of the secretary the Presbytery has made a creditable showing for 1930. Membership has increased by 250; value of Church property by \$3,500; indebtedness decreased by \$871; insurance increased by \$3,450; salaries increased by \$109; arrears in salaries only \$100; a decrease of \$400; gifts to M. & M. fund increased \$225; while gifts from the fund decreased \$1,035.

Is your Subscription paid?

## Change in Weather Brings Snow & Cold

Slight Snow Fall Here Good For the Stock.

Last Tuesday brought a sudden change in the exceptionally fine springlike weather. Alberta has been enjoying all winter. About noon a heavy wind arose causing a severe sand storm and making dust clouds which darkened the sun. In the Northern and Western sections of the province the wind was followed by a heavy snow fall and at the Clearwater Forest Reserve a bad forest fire raged. In this part of the province only a light blizzard of snow fell during the evening but by morning the Thursday snow had dropped several degrees. What little snow did fall here will be welcomed as the water supply for stock on the prairie was becoming a severe problem.

## LAD BADLY BURNED BY GAS EXPLOSION

Heiner Kallstad, the 12-year old son of Mr. and Mrs. A. Kallstad, First street, met with a painful accident last Thursday as a result of which he was badly burned about the face and hands. He was playing in a dug-out which was over a gas pipe in the yard. Apparently the gas pipe was leaking and filled the whole with gas and when Heiner lit a cigarette lighter to locate the leak an explosion followed blowing him out of the hole and burning him. The lad was taken to the Medicine Hat hospital. Although suffering considerable pain the wound are not serious and Heimer is expected to be able to return home this week.

W. J. Bowser, former premier of B. C., will be its next Lieut. G.

## Churches

ST. AMBROSE CHURCH  
Rev. Malcolm Stewart, Vicar.

Sunday, March 29, 1931  
8:30 A. M. Holy Communion.  
10:00 A. M. Sunday School.  
11:00 Matins and Sermons.  
7:30 p. m. Evening.

Bvery Wednesday during Lent Holy Communion at 9:30 A. M.; Evening at 8:00 P. M.

## ST. MARY'S CHURCH

Celebration of Mass every Sunday of each month except the First Sunday, at 8:30 A. M.

CHURCH OF BRETHREN  
Rev. Ira M. Zeigler, Pastor

Sunday School 10:30 a. m.  
Morning service 11:30  
Evening Services at 8:00.  
Church practice every Thursday evening at 7:30.

Everybody welcome. A special invitation is extended to those who have no church home or do not attend any Sunday School.

GORDON MEMORIAL UNITED CHURCH

## Red Cross To Have Child's Welfare Clinic

Local Branch Appoints Committee to Investigate.

The executive of the local Red Cross society held a special meeting at the home of the secretary Mrs. A. R. Ballantyne, last Monday. The meeting was called to consider the matter of a child's Welfare Clinic. By request Dr. A. E. Ward was present and related the objects of such a clinic. Its relation to the provincial Dept. of Health, necessary equipment and supplies and possible sources of help. After questions and discussion the thanks of the meeting were tendered to Dr. Ward and it was decided to sponsor the establishment of a Child's Welfare Clinic here. A committee consisting of Messrs. Pow and Stewart and Mesdames Ballantyne and Sellhorn was chosen for the purpose of consulting with government and other representatives and generally furthering the project.

## CANADIAN TRADE WITH WEST INDIES GROWING

Canada's fruit trade with the West Indies has rapidly grown during the past few months. From last November till the end of Jan. 1931, 157 car loads of Tomatoes arrived in Halifax via the Canadian National Steamships. During the same period 228 car loads of bananas and 11 car loads of grape fruit and a similar amount of other fruit have also arrived at Halifax via the same route. This is an indication of how the present government at Ottawa is trying to improve and encourage trade within the Empire.

## EUROPE VISITED BY HEAVY SNOW STORMS

A bad storm struck Europe last Monday and swept over the continent from Russia to France. Sweden and Denmark were under heavy drifts. In England the snow was two or three inches deep in the South, seven or eight inches in the North, with deep drifts in the mountains of Scotland, Wales and Ulster.

## AN EXPLANATION

Owing to a delay in the arrival of our regular weekly supply of paper for this issue we have been forced to print this weeks paper in rather unusual form but some thing improvised had to be done and we did it. We trust our readers will overlook the inconvenient form for this week.

## 5,000 FACTS ABOUT CANADA

"The Dominion in a Nutshell" is the arresting sub-title of the widely known annual, "5,000 Facts about Canada," compiled by Frank Yeigh, the recognized authority on the Dominion through his writings and lectures. It is extensively used by governments, corporations, colleges and schools, and also as a means of "selling Canada" to people in other lands. It is therefore a most valuable advertisement of the Dominion. Most news dealers carry it, or it may be had, at 25 cents a copy, from the Canadian Facts Pub. Co., 588 Huron St. Toronto 5.

## A New Era Of Co-Operation Between Canada And U. S. In Air Service Development

A new era of co-operation between Canada and the United States in the development of our services began when plans for the inauguration of new passenger and air mail lines were announced at Ottawa. The announcement came following a conference between P. C. Colman, assistant deputy postmaster-general of Canada and W. Irving Glover, assistant postmaster-general of the United States.

If the decisions reached by the two post authorities are approved by their respective governments, Canada will have a regular air service from coast to coast linked up at important points with the trans-continental air lines of the United States. In addition a north and south line from Alaska to Florida is contemplated.

The speeding up of trans-Atlantic mail services was also discussed, but on this point the programmes of the two countries are quite distinct. Canada will effect a saving of 48 hours in the present steaming service by ship between the United States and the United States is planning an all-air route to Europe from New York via Bermuda, London, Lisbon, Portugal and through France to England.

The first link in an air line which will traverse the entire length of the North American continent, from Florida, to Alaska, will be inaugurated shortly. It will run from Calgary to Miami and it will be possible to travel between the two points in 42 hours, a saving of 90 hours over present methods of communication. Eventually it is hoped to extend this route from Calgary north and eastward into Alaska by way of Fort McMurray and thence to Fairbanks.

The first step in the programme has been taken with the definite decision to put into effect an aerial link between Winnipeg and St. Paul-Minneapolis. While the details of the Winnipeg-St. Paul schedule were worked out the officials were also discussing the more ambitious scheme to develop a route from Calgary, through Fort McMurray into Alaska, and thence into Asia. It was agreed that unless Canada and the United States joined in the development of the Asiatic route, a few years might see serious competition from Russia in that region.

Russia is making considerable strides in aviation. Mr. Glover said, and 22,000 miles of flying is being done in that country daily. Three years are regarded by the officials as sufficient time to bring the Asiatic service into being. In the meantime definite progress is being made. Mr. Colman said, to set up aerial communication routes from Calgary to Vancouver. The route through the Rockies was not, he said, regarded as particularly difficult. As soon as communication is established to the coast by air, new links between Canada and the United States would be made at Lethbridge, Alta., and Vancouver. The Lethbridge link will be to Great Falls, Montana, while the western extremity of the United States system will be connected at Seattle from Vancouver.

The flights arranged between Winnipeg and St. Paul will complete the aerial chain between the prairies and the east. Mail for eastern Canada will be carried over United States air lines to Detroit and will there re-enter Canadian territory. While the schedule has not been definitely settled, Mr. Colman said that mail from Calgary would reach Montreal in 40 hours, a saving of 38 hours. A saving of 40 hours would be effected in mail for Toronto.

A glass factory in Alton, Ill., produces 300 tons of bottles a day, in more than 3,000 sizes and styles.

Three Thousand Feet Up  
"What was that noise?"  
"Only a banana skin on the path."  
—Die Lausitz Kieler, Leipzig.

### This Complex Life

Man, With All His Ingenuity, Cannot Solve Economic Problems

Man can take a drop of blood and tell the story of the owner's death by the color of the blood. The sense of a minute particle of poison gas; man can circle the earth without touching the ground; man can kill other men, twenty miles away; man can weigh the stars of Heaven; man can drag oil from the bowels of the earth; man can compel an icy waterfall to cook his meals a hundred miles from the stream; man can breed the seeds of oranges; man can coax a hen to lay three hundred and sixty-five eggs in a year; man can persuade dogs to smoke pipes and sea lions to play guitars. Man, in other words, is quite an ingenious and remarkable package of physical and mental machinery.

When this astonishing person, however, is confronted with one problem, he retreats, defeated, to his shell. Show him six men without money, and six loaves of bread belonging to men who cannot use it, but who want money for it, and he will tell him that the six loaves must be put in possession of the six surplus loaves, and watch him then! It is to him that all the conferences, and appointments, committees and holds elections, and a crisis is upon him, and does score of useless things, and then, retired, defeated, to his shell, leaving in the shivering twilight the tableau of the six hungry men and the six unapproachable loaves.—The Western Canadian

### Canadian Farm Loan Board

About Seven Million Dollars Disbursed To Farmers In Six Provinces

At the end of the present fiscal year on March 31st, when the organization will have been functioning a little less than two years, the Canadian Farm Loan Board will have disbursed nearly \$7,000,000 in loans to farmers in six provinces of the Dominion. The board was created by the Government in 1920, and its first year's work was marked by the \$4,428,000 loaned up to the end of September, the Government has securities in the form of lands and buildings valued at about \$16,000,000.

### Less Wheat In Britain

The British ministry of agriculture reports that England's wheat production for 1930 was 21,094,000 hundredweight, which is 1,000,000 hundredweight or 1 1/2 per cent less than last year's crop. Virtually all grain production was shown to be under last year's figures with barley dropping 28 per cent and oats 12.

### Hint To Motorists

Gerald Nettleton, twenty-year-old Toronto aviator, jumped 10,000 feet when the weather on high became so "sunny" that he couldn't see ten feet ahead. His practical sense of caution is recommended to the consideration of motorists who keep on driving when they can't look through their windshields.

### Western Canada Turkey Show

The first Western Canada All-Turkey Show, held at Dunsmuir, B.C., the other day, was a marked success, there being several hundred people present.

## Eskimo Maid Is Crowned Beauty Of Arctic Circle

Bronkall, 24-year-old brunette, is the reigning beauty of the Arctic. Andrew Brown, the big face and figure man of the north, selected this beautiful, brown-skinned Eskimo girl from an entry of two dozen, in the first beauty contest ever held inside the Arctic circle.

From Baker Lake, the little trading post on Chesterfield Inlet, just a thousand miles north of Winnipeg, came word of Bronkall's triumph. "Bling Star," her name means and proudly, for the first time in her life, she craves her prize—wedding. A mirror was her reward, the first she has ever owned.

Brown, who organized the contest, declared Bronkall the most beautiful Eskimo lady he has ever seen. She lives not far from Baker Lake, and is known as National Fairways.

### Place Order For Equipment

C.P.R. Lets Contracts For Both Passenger and Freight Cars

Orders have been placed by the Canadian Pacific Railway for the construction of 55 passenger cars and 425 freight and service units. It was announced at Montreal.

The Canadian Car and Foundry Company will build ten baggage and express cars and the steel frames of 45 other passenger cars, interiors of which will be finished in the company's Angus shops.

Forty-five gondolas and 35 air-dump cars will be built by the Canadian Car and Foundry Company, while 220 refrigerator cars will be constructed by the National Steel Car Company and 100 flat cars by the Eastern Car Company.

In addition to the above, three snow-plows and 25 tank cars will be constructed by the company in its own shops.

### Spoke From Experience

This cheap-jack auctioneer was trying hard to sell his stock of cigars. "You can't get better, gent," he belittled; "twenty-five in a box. You can't get better. I don't care how much you spend!"

Suddenly a voice put in from back of the crowd: "It's right, folk," it said. "I had one last week, and I'm not better yet!"

### Fertilizer Plant

Good progress is being made in connection with the fertilizer plant of the Consolidated Mining and Smelting Corporation, Ltd., at Warfield, B.C. Some of the buildings are now nearly completed and in one or two cases, machinery is already being installed.

### OAK BAY GOLF COURSE

The Oak Bay golf course on the unspoiled southern tip of Vancouver Island, which will become the center of interest for Western Canadian golf fans when the annual Empress Mid-winter Golf Tournament for the E. W. Beatty Trophy takes place February 23-28 inclusive. Often breezes, rock hazards and tricky mashing shots tend to make this course beside the Strathcona, one of the sportiest in Canada. In fact it is a handsome modern 18-hole winner of the Beatty Trophy, playing over the Colwood Course, and who this year will defend his title under vastly different conditions.

## Estimated Age Of The Earth Is Advanced From Time To Time As Scientific Knowledge Increases

### Complete Sheep Survey

Economic Survey of Sheep Ranching Industry of Western Canada

Return to Ottawa of Lawrence E. Kindt, of the economics branch of the Department of Agriculture, marks completion of the field work in the economic survey of the sheep ranching industry in Western Canada which is being carried out in co-operation with the experimental farms branch.

Mr. Kindt has visited ranches in southwestern Saskatchewan, Alberta and the interior of British Columbia. Complete records were obtained from 140 representative ranching outfits for the year 1929 and 1930 for the current year.

Real work of the survey—the studying of facts and figures secured by observation and contact in the field and preparing conclusions therefrom—will now start and it will take two or three months to carry out the phase.

### To Study Economic Conditions

Suggestion Made That National Research Council Undertake Work

The suggestion that a committee of the National Research Council study national and international aspects of matters having a bearing on prevailing depressed economic conditions was held out recently by Tom Moore, president of the Trades and Labor Congress of Canada. In an address to an Ottawa Service club the labor union leader remarked that the Dominion is without a co-ordinated authority of this sort. In this regard, it was important that the country keep abreast of the times.

### Ayrshire Breeders' Association

Secretary Of Canadian Organization Gives Report For November

The secretary of the Canadian Ayrshire Breeders' Association reports that during the period from November 1st to November 25th, he received 81 reports of cows and heifers that qualified in the R.O.P.—35 in the 365-day division and 46 in the 305-day or 360-day division. In the former, 15 qualified in the mature class; six in the three-year-old class; six in the two-year-old class. Twenty-eight of the records were made on two milkings a day.

### Attains Unbelievable Heat

The Westinghouse laboratory recently obtained a temperature of nearly 1,000,000 degrees. This is the highest temperature so far attained. It was created in a special type of vacuum tube. A small spot on one of the metallic electrodes between which an electric arc had been struck, reached this temperature, which is 160 times hotter than the surface of the sun.

### British Columbia Tomatoes

Twenty-three thousand dollars, representing the proceeds of this year's tomato crop in the Oliver section of British Columbia, were distributed to growers by the Dominion Canners Limited. The average production was 7 1/2 tons to the acre, for which the growers received \$17.50 per ton.

### Use Of Slang

One of the unmitigated trends of the times is the growing acceptance of slang into the realm of so-called polite conversation. The barriers of taboo are not so very long ago when the use of a slang expression was considered very bad social form.—St. Paul Pioneer Press.

### Automatic telephones are being installed in Paris.

Good wishes also come home to root.

India used 17 different calendars, all recognized by the governments.

Wife: "If I had to go away for some weeks would you be lonely?"

Husband: "Yes, at all."

Wife: "Good, then I won't go!"—Montague, Charlier.

Three Thousand Feet Up  
"What was that noise?"  
"Only a banana skin on the path."  
—Die Lausitz Kieler, Leipzig.

## Proposed Aerial Transport Line Between Great Britain and Canada By Way Of Northern Route

In an article written for the Toronto Globe, Major-General James H. Macfie, president of the Aviation League of Canada, explains the proposed aerial line of transport between Great Britain and Canada by way of Greenland.

This potential air line, he said, now being surveyed by the Watkins Greenland expedition, emphasizes the geographical position which will make Canada one of the most important units in Imperial and world air transport. Examination of a world globe shows that the shortest route from Great Britain to Eastern Asia is across Northern Canada the shortest route from the United States to Northern and Western Europe is over the central and eastern part of the continent, and the shortest route from the United States to Asia and to the Far East is over the western part of Canada.

"Ordinarily Winnipeg, in the heart of Canada, is a 12-day journey from London, but in a few years the journey will be done in two and a half days. The 5,000 miles that now have to be covered will be reduced to 3,500, and of these not more than 1,400 will be over water. "There is nothing in this prediction greatly to surprise Western Canadians where flights are regularly made from the banks of the Red River into the Arctic, to Chertsey or down the Mackenzie River to Akavik, which is eight degrees farther into the Arctic than Chertsey. On the proposed air line from Britain to Canada, before such a route can come into regular use two or three years will have to be spent in preparation; but the first flight from London to Winnipeg to be made by way of Iceland and Greenland or by the Arctic and Hudson Bay, should be down next August if all goes well with the Watkins expedition."

Three routes have been considered for the Canada-Britain line. One is by the Azores and Bermuda, which involves long stretches of flight over water; the other, by way of Newfoundland to Ireland, is short and direct, but involves an even longer water flight, and worse climatic conditions.

"An air city is the first consideration in every sound commercial enterprise, only the northern route remains. This is by way of the Arctic, then down the coast of Hudson Bay to Winnipeg."

"It is a flight of jumps, now longer than 450 miles over water and for four-fifths of the way none unreasonably out of reach of emergency landing harbors."

### Chevrolet Shoppers For West

Carload To Be Shipped To University Of Saskatchewan From Quebec Province

A carload of Chevrolet cars has been shipped from MacDonald College to the University of Saskatchewan for use in tests to determine the most satisfactory type that may be used in Western Canada. There were only a few Chevrolets in Quebec prior to their real introduction into the province by MacDonald College, (Agricultural Faculty of McGill University). The carload in question was selected from various parts of Quebec Province by the college authorities.

### Poultry Shipment To Hungary

A poultry shipment has been made other day from the Canadian Pacific Supply Farm at Strathmore to Hungary, the purchaser being General Hugs of Budapest, who is now touring Canada. The shipment consisted of one cockerel and two pullets each of Rhode Island Reds and Barred Rocks.

Spain is importing more electrical materials than a year ago.

"Name, my car is getting wet in the street!"  
"No, sir, John is holding an umbrella over it!"—Buen Humor, Madrid.

W. N. U. 1871

### Document Well Guarded.

Montreal Church Visits Held Birth Certificate of First White Child Born There

A yellow document reposing in the vaults of the Notre-Dame church celebrated its 282nd anniversary on November 24. It is the birth and baptismal certificate of Marie Le Moutier, first white child to be born in the fort that grew to be Montreal. Written in Latin, in behalf of one of the Jesuit missionaries whose order was serving the settlement in 1648, the document is so precious from the civil and historical viewpoint that the Quebec government has had a facsimile made.

The register in which the entry is made is a special one kept by the municipality between 1647 and 1657. Mr. Massonette explained. There is a definite design on the part of the white child; they cover the births and baptisms of children of converted Indians. The Jesuits kept their register in Latin until the year when the Bishop's Order came here, when it was changed to French. The little girl was born in the fort, which was located below the Riviere St. Pierre, running roughly on a line of the Common street of today and extended toward Pointe a Caliere, now Point St. Charles.

(By Eva A. Tiger.)

### CHARMING DAY WEAR

All Tiger models are created and sketched in Paris and the patterns are made in New York. Simple becoming lines, easy to slip into, quick and fascinating to make.

Here you have today's model of red and white woven mixture. A simple belt marks the normal waistline.

The grouped plaits at the front of the skirt provide a smart flare and still retain the slim line of the silhouette.

It's such a comfortable dress for all-day wear.

Cricket green wool jersey with red and white leather belt is snugly fitted.

Forest green canton crepe with white belt is also a smart model. This pattern may be obtained in sizes 10 to 20 and 26 to 42. It is ready for immediate delivery. It is hand cut.

25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

### Russian Furs Flooding Market

Canadian Furriers' Guild See Menace To Canadian Industry

The menace of flooding the markets of Canada with Russian furs, prohibited under the Soviet's "five year plan" and under conditions of "virtual slavery," has prompted the Canadian Furriers' Guild to make representations to the Minister of National Revenue, Hon. E. R. Mackay, looking towards measures designed to forestall the threat, according to F. D. Burkholder of Ottawa, president of the guild.

The furriers are asking for the imposition of a tariff on raw furs with certain preferential clauses. So far there has not been much direct swamping of Canada with the Soviet articles, although a large volume is entering this country through the United States, Mr. Burkholder says.

The trade in Canada is being affected by the actions of certain British furriers who, lending themselves as agents in London for those materials dumped into England, are re-exporting them to this country at a price which the Canadian trade cannot compete.

"There is a definite design on the part of the Soviets to destroy the fur industry throughout the world," Mr. Burkholder says. "The Russians have established a fact in the London and European markets the Soviets are offering raw furs at a price considerably lower than that of Canadian furs, while at the same time they are selling manufactured and semi-manufactured articles at a price that is even lower than the raw material. That is an impossible situation."

In Canada, the fur trade, like all other industries, is nationalized, while we in Canada have to provide for the trapper, the collector and all the other agencies necessary to the maintenance of the industry. In Russia the furs are, in the first place, the property of the government; they are secured under conditions of virtual slavery; the collectors simply go to the mountains and take the furs, in the initial costs being practically nothing.

"The Soviets have established factories which copy European and North American styles, and they are seeking to control not only the market for pelts, but also for manufactured goods. The competition is not fair competition, and it is against that we are protesting."

### Canadian Game Resources

Abundance Of Wild Life In Vast Wooded and Cattleless Areas

Notwithstanding the fact that serious inroads have been made on many species of game native to North America through the advance of settlement and development, there still remains in the vast wooded and unsettled portions of Canada an abundance of wild life. Thanks to very legislative measures and strict enforcement of laws, these valuable resources have been protected and conserved with the result that game is well distributed throughout practically every province from the Atlantic to the Pacific.

Every child in an elementary school in England now costs the nation an average of \$62.60 a year, the expenditures varying from \$52.10 in London to \$42.10 in Whitehaven.

British overseas trade is reported still to be declining.

### Freedom Of Speech

British Believes The Way To Kill Foolish Ideas Is To Permit Freedom Of Speech

In Hyde Park, London, England, not far from the royal palace in which King George V. reigns, is a place of free speech. There is a place for all and all are free to speak and to be heard. It is a place of free speech, anyone may mount a soapbox and speak to his heart's content about anything that pleases — or, more frequently, displeases him. As about a score of speakers raved about a score of topics, squads of policemen came charging by. The speakers, and the crowds, jumping to the conclusion their ancient rights were being assailed, started after the police and there was a free-for-all. After the riot had calmed down, the police explained, very patiently, that, far from desiring to interrupt the speakers, they had been engaged to check the lawless, noisy hoodlums who threatened to interfere with the speaking.

The British realize that the way to kill a foolish idea is to lay it out in the sunshine of public opinion and let it shrivel. — Vancouver Sun.

### Working For Peace

Statements Of Europe Want To Prevent War Says Frank R. Kellogg

Frank R. Kellogg credits European statesmen with giving the world a genuine present of peace and good will.

Returning from Europe on the liner "Oregon," the former U.S. Secretary of state said he had heard "talk of war over there," but attributed no importance to it.

"There has never been a truce," he added, "when the statesmen of Europe have taken so many steps to prevent war. They are using pacific means to adjust their controversies. Perils in the Russian situation and reports of the formation of a great Red Army were minimized by Mr. Kellogg."

"I think the most important thing to do to restore peace is to obtain land disarmament," he said. "I think a disarmament conference will be held within a year or two."

### Carlton Herds Improving

Observations made by explorers and investigators of the Department of the Interior, Canada, over a considerable period indicate that a decided improvement has taken place in recent years in the condition of the caribou herds of Canada's northland. To the west in Yukon Territory and eastward almost to Hudson Bay the caribou reported in large numbers, in many cases, having reappeared on their old migrational routes.

### Rings Used As Currency

Ancient gold rings from the Viking days, weighing 350 grammes (15 ounces) have just been found in a field at Haver, on the Swedish island of Gotland, in the Baltic Sea. They are shaped like small spirals and were used at a time when no currency existed.

Casey (to Foreman)—"I'm tired of carrying this load. I want to push a wheelbarrow like Ryan does."

Foreman—"You push a wheelbarrow. What do you know about machinery?"

Turkey has only one telephone line to the outside world.

### THEIR EXCELLENCIES LORD AND LADY WILLINGTON

Lord Willington, Governor-General of Canada, has been appointed new viceroy of India to succeed Lord Irwin. It has been announced from London, England. A Liberal politician, Lord Willington was governor of Bombay from 1913-18 and held a similar position in Madras from 1918-24. It is expected his Excellency and Lady Willington will leave Canada within a few weeks to prepare to take over new post in April. On account of his ruling, the prime minister of Canada will be confronted with unusual task of naming a new governor-general. Above are shown photographs of interesting portrait paintings of their excellencies Lord and Lady Willington.

## Policy Of Ruthless Repression In India Would Destroy All Hope Of A Successful Issue

### Grain Deficient In Mineral Salts

Should Be Added To Ready Mixed Feed For Hens

The bulk of the hen's ration is composed of grain products, practically all of which are deficient in some of the mineral salts.

In earlier times when a hen laid only one or two clutches of eggs in a year and was running out of eggs in range, there was no need for giving thought to the mineral question. During the months between nesting time, she was able to assimilate enough mineral matter to maintain a proper mineral balance.

Today she is quite often cheated of the free range and in addition is not allowed to lay practically the same number of eggs. It can readily be seen that it is necessary to supply certain minerals in the ration.

Before adding a mineral mixture or mineral feed to the ration, read the manufacturer's instructions. Aside from cyster shells, he may have taken care of the mineral question. Adding further mineral feed might cause a surplus which would be detrimental to the birds and at the same time increase the cost of the ration.

### Egg Crates Should Be Well Seasoned

Or Peculiar Mold May Develop On Eggs

Shells Recently a peculiar mold which develops on egg shells during shipment and in cold storage has caused some heavy losses to the handlers of cold storage eggs.

As nearly as can be learned, it seems that this mold is caused by using crates made of unseasoned or poorly seasoned wood. This spot mold first appears on the outside of the egg shell. It leaves the egg unhealthily and reduces its market value. Within a short time it will penetrate the shell, spreading through the interior surface and giving the egg a moldy flavor. It can be eliminated by using only well-seasoned egg crates.

### Dairies In Merger

Amalgamated Creameries Of Canada To Operate In Ontario

A considerable number of dairies which have been operating in Ontario for at least 10 years have been included in a new company, Amalgamated Creameries of Canada, Ltd., which has been granted a Federal charter.

British and Toronto interests are sponsoring the company and it is understood that Lord Teignmouth and Sir Reginald Butler will be the English representatives on the board of directors.

### B.C. Liquor Prices

General reduction in liquor and beer prices for 1931 were ratified by the provincial government of British Columbia, on the recommendation of the liquor board. Individual permits remain at \$1.00 for liquor and \$1.00 for beer, but almost every variety of liquor, wines and beverages sold by the board have been scaled down.

### "It would doubtless be possible to supply a far more ruthless policy of repression than anyone has yet suggested and, after a space of time to create a desert and call it peace," declared Lord Irwin, viceroy of India, in speaking at the annual dinner of the Indian Association at Calcutta, India, recently.

The wish who has guided the helm of India since 1920 and who is soon to be replaced by Lord Willington, a victory, had a most attentive audience in the European association, which has been debating and is divided over methods of again bringing tranquility to the country.

Ruthless repression, continued Lord Irwin, would involve a rigid, press censorship, compared to which the press oppression had been almost negligible, also strict prohibition of all hostile expressions of opinion, suppression of the ordinary law of punishment over a wide field and other similar actions on these lines.

"But, far from furthering the accomplishment of Britain's principal purpose, which is to lead India into self-government and retain her as an equal and contented member of the Empire, such action would aggravate the task and probably destroy the hope of a successful issue. (The forces of what we call nationalism could not be lulled on these lines.)"

Lord Irwin proceeded to denounce strenuously the tactics of the terrorists, which is to lead India into self-government and retain her as an equal and contented member of the Empire, which is to lead India into self-government and retain her as an equal and contented member of the Empire, which is to lead India into self-government and retain her as an equal and contented member of the Empire.

"If repression," continued the viceroy, "means determination on the part of the Government to create a lawless and lawless state, it has no meaning to the responsible terrorist then the government will readily pledge itself to the charge."

### Burning Pyrite Ores

New Process Makes Possible The Production Of Sulphur And Iron Ore In Canada

A new process for burning pyrite ore makes it possible for sulphur and iron ore to be produced in Canada on a commercial basis within a very short time. A description of this new process is contained in the current issue of the monthly letter from the Canadian Pyrite Ore Association.

The announcement in the Royal Canadian letter reads in part as follows: "Among the recent developments in the Canadian mineral industries one which holds promise of making substantial savings for the new-entrant industry. It is hoped that by making use of a new process for burning Canadian pyrite ore, invented by Horace Freeman, of Shawinigan Falls, Quebec, that the new-entrant industry can advantageously discount annual purchases of more than four and one-half million dollars worth of sulphur from abroad in addition to direct savings to the new-entrant and chemical industry, the by-product of this process, iron ore, would supply one-eighth of the total annual iron ore requirements of Ontario and Quebec."

### When The Editor Writes

The editor of the Despatcher, Mr. World, reveals the secret of how he writes his editorials. He says he has the Bible to the right of him, a dictionary to the left of him, a typewriter in front of him, his wastebasket behind him, a chair under him and beds hanging over him.

### Western Canada Forecasts

The forests of Canada continue to be the chief source of the world's paper supply. Western Canada has approximately \$50,000,000 cords of pulpwood and 25,000,000,000 board feet of sawn lumber.

The area of the Dominion of Canada is more than 600,000 square miles greater than that of the United States proper.

"Don't bring that mortar up here, the extra weight may break the scaffolding."—Requies, Barcelona.

## Interesting Local Items

C. Barr won the ring contest  
at Shorty's Barber Shop.

Leonard Hicks, of Seattle, who  
has been visiting his mother  
here for the past few weeks, re-  
turned on the noon train last  
Tuesday.

The Ladies of St. Mary's Altar  
Society will hold a Whist Drive  
and Dance in the Cliff Hall on  
Tuesday, March 17th. Alf Dut-  
son's Orchestra. Cards to com-  
mence at 8:15 P. M. Admission  
\$100 a couple Extra ladies 50c.

It now looks as though a num-  
ber of Redcliff people were going  
to be disappointed in not being  
able to get to the Fish and Game  
Banquet in Medicine Hat as the  
tickets for outside guests are  
limited and the quote for Red-  
cliff has already been absorbed.

Messrs. Perry & Thompson,  
who have the contract for repair-  
ing the Gas Company's well on  
Broadway, arrived in town last  
Tuesday with the full equipment  
for proceeding with the work.  
The machinery is already in  
place and the work will be rushed  
through to completion as rapidly  
as possible.

G. M. Blackstock, K. C., of  
Medicine Hat, is prominently  
mentioned as a probable suc-  
cessor to the judgeship made vac-  
ant in this province by the death  
of His Honor Judge Taylor of Ed-  
monton. If Mr. Blackstock  
should get the appointment it  
would be the most popular one in  
this district where he is consid-  
ered most eminently fitted for  
the honorable position.

Mrs. A. J. Learmonth entertain-  
ed four tables of her lady friends  
to bridge last Tuesday evening.  
The honor of winning the prize  
went to Mrs. King while the con-  
solation was won by Mrs. C. T.  
Hall.

Owing to the great success of  
the Young People's Entertainment  
last Thursday evening and also  
to the fact that a number in  
town were not able to attend it,  
the Review has been asked to  
suggest that it be put on again  
as soon as possible. Those ask-  
ing us to make this suggestion  
say they are convinced that the  
entertainment would receive an-  
other crowded house.

FOR SALE—A good building  
suitable for business and living  
quarters. Will sell building and  
house furniture very cheap. Ap-  
ply at Review Office.

FOR SALE—A good generat-  
or, 25 Kil., 100 Amperes and 250  
Volt. In good condition. Will  
sell at reasonable price. Apply  
at Review Office.

**billiards**  
takes Your Mind  
off Your Worries

In fact, it takes your mind  
off everything but  
billiards. It gives you a  
thrill and brings you out  
of your shell. You need  
not be an expert to  
enjoy a game of billiards  
on our modern Brunswick  
equipment. Come in to-  
night and "play" with  
your friends.

ducts and Mr. Deachman replied  
in the affirmative.

Almost immediately a cyclone  
of protests whirled into the cap-  
ital. Fruit, vegetable and dairy  
producers denounced the Deach-  
man attitude as wholly unrepresen-  
tative of the industries con-  
cerned and declared that neither  
Mr. Deachman nor the so called  
Canadian Council of Agriculture  
spoke for them. Protective tar-  
iffs were imperative, it was  
claimed, if these branches of ag-  
riculture were to succeed.

Mr. Bennett announced that  
close upon 1,000 briefs had been  
submitted to the Government  
asking advances or decreases in  
tariffs during the coming session  
of Parliament.

Many will be allowed in whole  
or in part but where an advance  
in rates is made the Government  
will insist upon adequate guaran-  
tees that the consuming public  
will not be exploited by those  
given added protection.

## CARD OF THANKS
